

Adam Carroll Live At Flipnotics

Texas troubadour Adam Carroll offers up a collection of fan favorites and new originals beautifully accompanied by enigmatic producer, guitar wizard Scappy Jud Newcomb. Recorded at Austin's intimate songwriter heaven Flipnotics Café, this must-have CD gives the closest experience to "being there". Adam and Scappy have toured their acoustic show across the USA, Canada and Europe.

".. His songs seem to move me more every time I hear them. .. It's an honor to play music with people like Adam. He writes with dignity about the people and places he's seen on his journey, which of course is a never ending quest. We're lucky when people like him light the path a little brighter. .." Scappy Jud Newcomb, Producer

"Adam .. Carroll just released Live At Flipnotics, and it .. makes a perfect .. introduction to one of the hippest songwriters on the Texas music landscape." William Michael Smith, [Houston Press](#)

"Among singer-songwriters, Adam Carroll is probably Austin's best-kept secret. His tunes are marvels of economy; .. constantly inventive and decidedly offbeat .. Live at Flipnotics offers a typically low-key yet inviting overview of his career. With Scappy Jud Newcomb on guitar, he sparkles .. " Jim Caligiuri, [Austin Chronicle](#)

"Adam Carroll's "Live at Flipnotics" album is one of the best records I've listened to in a long time. .. a month after I put "Live at Flipnotics" in my car's CD player, it had yet to be removed. You can now officially call me hooked. Carroll .. has delivered a live album that one could essentially equate to that of ...a "greatest hits" compilation as it spans his career .. performed with "Scappy" Jud Newcomb, Beaver Nelson and special guest, Matt The Electrician. The result is an album that is lively, thoughtful, playful, insightful and even introspective." Stewart Smith, [Tyler Morning Telegraph](#)

Adam Carroll joins the short list of down-home storytellers taking events of ordinary lives and turning them into deeply moving, often humorous songs. Though he's kept a low profile, his past seven records have earned him critical acclaim throughout the world.

"The core of what I do is songwriting; it's the one thing I'm passionate about. It's the most fulfilling and challenging job I can imagine." AC
